Finish	Durable Baked on Zero VOC Finish	Color	Natural Clear Coat

Finish Quality	Dura-Groove® Cedar finishes are compared to fine furniture. Micro-fine sanded and finished with the most advanced baked on zero VOC finish.
Wood Quality	Dura-Groove® Cedar starts with the finest quality Western Red Cedar. Hand selected tight knot board, kiln dried, and machined to exacting standards.
Durability	Factory finish is one of the most durable UV cross-linking finishes on the market today. Similar finish technology is typically reserved for high end wood flooring.
Total Savings	Dura-Groove® Cedar costs less than on-site finishing. Saves time and money eliminating the additional cost of finishing on the jobsite. The quality of the factory finish cannot be replicated with on-site finishing.
